BILOXI, MISSISSIPPI**

# Distinguished Partner in Preparedness

## Honorable Tate Reeves, Governor of Mississippi

As the 65th Governor of Mississippi, Tate Reeves continues to build on his strong record as a conservative leader who fights to improve educational opportunity and grow new careers so that Mississippi's best and brightest can raise their families and thrive.

Since he took office as governor, Mississippi has seen record educational gains which have been called the "Mississippi Miracle." Mississippi went from being ranked the second-worst state in 2013 for fourth grade reading to 21st in 2022. In 4th grade math, Mississippi went from dead last to 23rd. Mississippi's graduation rate is currently at an all-time high and better than the national average.

Less than one month into 2024, Mississippi shattered yearly economic development records when Governor Reeves announced \$12 billion in new private sector investment. This includes the single largest economic development project in state history – a \$10 billion private sector investment in Madison County by Amazon Web Services. Additionally, it includes the largest payroll commitment of any major project in state history through a joint venture between Accelera by Cummins, PACCAR and Daimler Trucks & Buses. The joint venture is investing approximately \$2 billion to locate manufacturing operations in Marshall County.

Under Governor Reeves' leadership, Mississippi achieved an overhauled statewide workforce development strategy, all-time low unemployment rates, and the largest tax cut and the largest teacher pay raise in state history.

Governor Reeves is a fierce supporter of law enforcement and our Second Amendment. He remains committed to his inaugural promise to defend the loving culture that underpins our quality of life and grow our economy that lifts all of our families. He has pledged to work every day to make that promise a reality for all Mississippi.

Governor Reeves has continued to make history throughout his public service career. When elected in 2003 for his first public office, Governor Reeves became the youngest state treasurer in our country and the first Republican to hold the office in Mississippi. His business training in the banking sector made him our state's foremost advocate for balancing the state budget while minimizing state debt.

A Rankin County native, Governor Reeves is a graduate of Florence High School and an honors graduate of Millsaps College, where he earned a bachelor's degree in economics. He holds the Chartered Financial Analyst designation.

While proud of these accomplishments, his greatest joy is being the husband to First Lady Elee Reeves and dad to their three girls.

# Acronyms

ARC .....	American Red Cross

HAGERTY

### OUR FIRM

Hagerty Consulting, Inc. (Hagerty) is a full-service consulting firm that helps clients prepare for, respond to, and recover from disasters. Hagerty has supported local, tribal, and state governments and private sector clients through every major disaster since 2001.

We blend exceptional management consulting skills with the industry's deepest programmatic expertise to produce unique, innovative strategies and results for our clients.

To date, Hagerty has developed and managed over \$85 billion in federal funds.

### INVESTING IN A RESILIENT FUTURE

We help invest in their future by helping them plan, assess, and leverage unique federal funding opportunities, including over \$1.2 trillion from the Infrastructure Investment and Jobs Act (IIJA) and nearly \$400 billion from the Inflation Reduction Act (IRA).

## Who We Serve

### Our experience is vast.

We work with federal, state, county, city, and local governments, as well as private sector organizations. Examples of current and previous clients include housing authorities, hospitals and healthcare systems, public health authorities, public and private utilities, transportation systems and networks, education systems, cultural institutions, and more.

### Our Work

#### Pre-disaster, we help our clients...

- Prepare and plan for the unique hazards and risks they face.
- Pre-identify and train their response team that can rapidly mobilize in the event of an emergency.

#### During the disaster, we help our clients...

- Mobilize subject matter experts (SMEs) to provide scalable, targeted technical expertise at field sites and within emergency operations centers (EOCs).
- Administer data analytical and visualization support for executive decision-making, operational intelligence, trends analysis, and cost recovery purposes.

#### After the disaster, we help our clients...

- Identify damages, assess recovery needs, and access federal funding options through FEMA, HUD, and other agencies.
- Develop scopes of work to repair/replace damaged infrastructure and housing, promote economic recovery, and incorporate best practice resilience and mitigation concepts.
- Plan for and build capacity to implement long-term recovery strategies, including grant lifecycle and financial management.
